By:NoSoyMalaHierba

The resources that enter the picture by fines and penalties breathalyzer, will be aimed at preventing accidents, municipal authorities reported at a press conference Aguascalientes.

The conference was held at noon in the Chapter Hall and was presided over by the town clerk, Enrique Martinez Macias, Jose Gerardo Sanchez Garibay, director of Traffic and Mobility of the Ministry of Public Security Municipal (SSPM) and

Light Anduaga Alicia Elizondo, representative in Mexico of the Global Partnership for Road Safety, who made delivery of equipment to the Municipal Civil Protection, and announced that with these resources, and entered the municipal payroll, 22 men and women volunteers, most since 2008 providing services to the municipality for free.

For his part, Gerardo Sanchez Garibay said that "here we see what resources are being applied, and here is the team that is being delivered to them so they can fulfill this duty in the best conditions."

Light Anduaga Alicia Elizondo said that "another of the wonderful things of Aguascalientes, is that the allocation of the resources generated by road accidents is to prevent road accidents."

There are 3 million 800 thousand pesos that have entered the municipal coffers photo concept to resources will be fully invested at accident prevention programs, not only transit, but to Municipal Civil Protection.

Gerardo Sanchez Garibay said that while in January 47 percent of citizens exceeded speed limits, today is only 10 percent.

He criticized Antonio Martin del Campo, PAN candidate intends, to get to the mayor, remove the program from photo radar, noting that "would be a step backward, we are moving forward, I understand that citizenship is something difficult to accept, but in reality would not necessarily bother if you're not doing something wrong, if everyone drove at the speed we drive, you should not worry about the fine picture, we must be aware that it is a measure taken to our security and that of our loved ones, and all the people around us, is able to travel in a safe city, is a measure of first-world country. "

Likewise, Luz Alicia Elizondo said Anduaga Aguascalientes Course will host the First National Training of Trainers on Operating Road Safety, which began yesterday and will end on June 14.
